

Congress of the United States
House of Representatives
Washington, DC 20515

April 27, 2021

Dear Chairman DeFazio and Ranking Member Graves:

I am requesting funding for the Sussex County Guide Rail Project in surface transportation reauthorization legislation.

The project sponsor for this project is the County of Sussex, New Jersey and the project is located at County Road 565 from Pelletown Road to County Road 628 and along County Road 639 in Sussex County.

The funding is designated to remove and replace damaged, substandard, and/or outdated guide rail systems throughout the County. The identified guide rail systems will be replaced with new galvanized steel beam guide rail in conformance with current New Jersey Department of Transportation Standards.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: (1) It will help make county roads safer and lessen the severity of crashes for all of the motoring public; (2) It will help promote transportation resiliency to accommodate future growth and possible changes to use or access patterns.

I certify that neither I, nor my immediate family, has any financial interest in this project.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Gottheimer".
